

2011-12 Future Vision Addendum to the District Training Manual

Future Vision Pilot Districts

The updates outlined below are intended for districts participating in [The Rotary Foundation's Future Vision](#) pilot from July 2010 through June 2013. At the conclusion of the pilot, all Rotary districts will implement the Future Vision Plan. Training for all districts will start for incoming district and club leaders in 2012-13 to prepare them to use Rotary Foundation grants in 2013-14.

As a pilot district, you will be testing a new district structure that involves integrating Rotary Foundation responsibilities into other district committees that have specific expertise.

The district training committee will now have more responsibility for the district Rotary Foundation seminar and the new grant management seminar.

For additional information on these seminars, refer to the following Future Vision publications available at www.rotary.org/en/fvdistrict:

Future Vision Addendum to the *District Rotary Foundation Seminar Manual* — Resource for districts to plan the district Rotary Foundation seminar and to train clubs on The Rotary Foundation.

Grant Management Seminar Leader's Guide — Resource for districts to train clubs on proper grant management. Clubs must complete this training to be qualified to receive Rotary Foundation global grants.

All Future Vision-related information can be found at www.rotary.org/en/fvdistrict.

If you have questions about the Future Vision pilot, e-mail futurevision@rotary.org.

If you have questions about the grant management seminar, e-mail fvqualification@rotary.org.
